Getting to Know the New Thought Movement
For more than one hundred years the various strands of New Thought have traveled parallel paths. Today the distance among the visions and values of our organizations is negligible. Recent events, such as a shared participation in the Parliament of the World’s Religions, have increased our visibility on the International stage as a Spiritual Movement. With the guidance of the Association for Global New Thought, we are now able to initiate new collaborative models that have not been possible in the past. The New Thought Movement recognizes this transitional moment as historic and necessary to the generation of a living legacy of Spiritual Awakening and compassionate activism.

Stayed tuned for more exciting news as we begin this synergistic journey as a Global New Thought movement.

Our New Thought Organizations
ANTN was founded by independent Religious Science ministers who envisioned a spiritual community that would provide heart-centered connection, support and networking for independent Religious Science ministries. They also envisioned a community in which Consciousness was the sole authority. Based on those visions, ANTN was formed in 1992.

Since its inception, ANTN has evolved to include not only independent Religious Science ministries, but all New Thought ministries who desire to be a part of such a spiritual community.

**VISION**

To create global transformation and healing through empowering New Thought ministries that encourage creativity, caring community, education, and spiritual support.

**MISSION**

To foster the growth of unique New Thought communities that encourage the consciousness of service, spiritual growth and integrity.
